WORK EXPERIENCE

Amazon Sumner, WA
Delivery Station Liaison Apr 2026 – Present

- Manage high-urgency inbound and outbound customer escalations for failed deliveries, owning each case end-to-end with a focus on same-day resolution and customer retention.
- Investigate delivery failures to identify root causes and coordinate in real time with drivers, dispatchers, and station leadership to recover packages under tight time constraints.

Affirma Bellevue, WA
Marketing Intern Jun 2025 – Aug 2025

- Audited websites and digital platforms for a global tech client, evaluating technical content and branding consistency against structured criteria.
- Produced detailed audit reports and presented recommendations; ensured high accuracy while working independently in a distributed team.

University of Washington Information Technology Seattle, WA
IT Consultant Jul 2022 – Mar 2025

- Provided Tier 1 support for a large institutional userbase (70,000+), across phone, chat, email, and in-person channels; resolved technical issues related to login access, VPN, email, software, and network connectivity.
- Managed 25–50 tickets per shift with 95%+ satisfaction using ServiceNow; ensured timely resolution, proper escalation, and clear documentation under high-volume conditions.

Customer Experience Lead & Email Analyst May 2023 – Dec 2023

- Triaged complex technical issues and collaborated with engineers and senior computer specialists to escalate incidents and ensure timely service restoration across core university systems.
- Analyzed support trends and updated 30+ knowledge base articles, increasing self-service adoption by 20% and reducing repeat tickets.

Brotherhood Initiative Seattle, WA
UX Intern Mar 2023 – Apr 2024

- Conducted 20+ user interviews and usability tests, synthesizing insights into actionable prototypes that influenced stakeholder decisions.
- Increased user retention by 15%, strengthening program engagement and visibility.
